You have had IV sedation and local anaesthetic spray therefore you must:

- Have a responsible adult to care for you at home for 24 hours
- Have plenty of rest at home as the sedative can make you feel lethargic and tired

You must not:

- Drive a vehicle or motorcycle
- Drink alcohol, take recreational drugs or sleeping tablets
- Operate machinery or household equipment (kettle /cooker)
- Sign any legal documents
- Look after young children and dependents

You must not have anything to eat and drink for 2 hours.

You can start eating and drinking at _____

At this time try a small sip of water, if this does not make you cough or gag you can eat and drink normally.

After your procedure you may experience:

- A Sore throat / nose or a hoarse voice. This is nothing to worry about and will settle without any treatment.
- You may cough up blood or blow blood down your nose, this is quite common and due to the passage of the instrument.

Things to watch out for:

- Severe pain in the neck or chest
- Coughing up large amounts of blood
- Becoming increasingly short of breath or different from your normal
- Fever

If you develop any of the above please seek medical advice from:

- **GP** in working hours
- **111** out of hours or for urgent advice the nearest **A&E** department
