

Endoscopy Units

Discharge Information Following Transnasal Endoscopy (TNE)

Calderdale Royal Hospital

Tel: 01422 223933 / 223920

Huddersfield Royal Infirmary

Tel: 01484 342436 / 355877

You have had nasal passage and throat spray at _____

- Please ensure you do not blow your nose for the next 48 hours as there is a risk of causing a nose bleed.
- You must not have anything to eat and drink for 30 minutes. After this time try a small sip of water, if this does not make you cough or gag you can eat and drink normally.

If you do have coughing and gagging please wait a further 10-15 minutes and try again.

If you have had biopsies/tissue samples the results will be available in 6-8 weeks from your GP or referring consultant. **These will not be available from the endoscopy department.**

If your GP has referred you, please make sure your GP has received the biopsy results before you make an appointment.

However, this may be sooner if you are on a fast track suspected cancer pathway. Once the consultant has the biopsy results they will write to you or you will be invited to a clinic appointment.

After your procedure you may experience:

- Sore throat or nasal passage that may last for 24-48 hours, this should be mild and settle quickly. Simple lozenges will help.
- You may have some bloating or stomach cramps or a feeling of fullness due to the air we put in during the test. This will get better over several hours.

Things to watch out for:

- Severe pain in the neck, chest or abdomen
- Your bowel motions start to turn black
- Fever
- Vomiting

If you develop any of the above please ask seek medical advice from:

- **GP** in working hours
- **111** out of hours or for urgent advice the nearest **A&E** department

Calderdale A&E Tel: 01422 222325

Huddersfield A&E Tel: 01484 342396

If you attend A&E please take a copy of the report with you.

Follow up: Dependent on the nature of the finding you may need further investigations, these will be arranged by your referring clinician.

Repeat procedure : Yes in _____ weeks/months No

Restart medication _____ Date _____

Copy of the report given and explained Yes No

Upper GI Cancer Specialist Nursing Team

You may have been told today that you have a suspected cancer. You can ask questions regarding diagnosis and treatment on the below number. Please leave a message and one of the team will be in contact with you.
