Joint Information for patients prescribed disease modifying treatment

Following your diagnosis of Multiple Sclerosis (MS) you have now become eligible for Disease Modifying Treatment at Leeds Teaching Hospitals under the care of Dr Lily or Dr Ford.

Assessment

You will be seen at Seacroft Clinic in Leeds where you will be assessed by a clinician as to whether you are eligible for treatment.

If you are eligible for treatment you will then discuss treatment options available.

Monitoring

Depending on your choice of treatment will determine your future management.

This commonly involves

1. Attending Seacroft at 1 / 3 / 6 / 9 / 12 months in the first year.
2. Thereafter you will be monitored locally with 1 annual review by your Consultant at Leeds.

Your treatment start-date will determine your annual review date with the Leeds Consultant. In the majority of cases bloods will be taken as part of the review process.

Local Review

You will continue to be reviewed at your local hospital by either your Consultant Neurologist and/or MS Specialist Nurse regarding symptom management or relapse.

Relapse Management

In the event of a relapse during treatment you should contact your local MS Nurse for assessment and possible treatment.

Leeds should be informed by your local MS Nurse if relapse occurs as it may be significant to future treatment options.
