

# Having a Medical Photograph

## Easy Read

A medical photograph is a photograph that your doctor has asked us to take.

It helps the doctor to decide how to help you.

# Coming to the department

You are coming for a medical photograph because your Doctor sent you

At the main reception someone can show you the way to the Medical Photography department

Ring the bell and wait until we answer the door

A <input type="checkbox"/> Publication purposes as explained to me		
Patient/Parent/Guardian signature:		Date: .....
Requester:		Date: .....

If you have a yellow card bring it with you

Hand in your card if you have one

## Getting ready for the photograph

You can sit in the waiting room until it is your turn

The photographer will take you into another room with lights and a camera

A photographer is a person who takes pictures

You may need to take off your watch and jewellery

For some photographs you may need to take off some clothes

## Taking your photograph

The photographer will make sure you do not feel uncomfortable while they take some photographs

Taking your photos may last around 10 minutes

The photographer will ask you to stand up or sit on a chair

The lights are bright and can feel warm when you are near them

The lights are noisy when they flash

The photographer may have to get close to you to take the photograph

It does not hurt

You need to keep as still as you can. This is to get better photographs

When the photos are finished the photographer will tell you when you can go

You will get the results from the doctor who asked you to come
