Your Child has Satisfactory Hearing with Congestion

Your Child's name: _____

Your Audiologist's name: _____

Date of Appointment: _____

What have we found out today:

Testing shows that your child has satisfactory hearing levels, but temporary fluid has been identified behind the eardrum. This is quite common in children and will resolve itself in time.

So what next?

Your child will have no further appointment following todays satisfactory hearing levels. If you think your child's hearing deteriorates or you have further concerns then please contact your GP for a new referral back into Audiology.

Signs of hearing difficulties:

- TV volume getting louder
- Misunderstanding what is being said
- Having difficulty hearing in background noise
- Persistent ear infections
- Speech delay
- Behaviour problems
- Problems locating direction of sound

Results?

The person who referred you into Audiology and your GP will receive a copy of today's results and a copy can be provided to you should you wish.
