### Completing the Carbohydrate Food Diary

1. Check blood glucose pre meal and write this in the first blank column of the diary.
2. Write down what food or drink taken in the second blank column of diary providing as much detail as you can and including volume or weight if relevant.
3. Identify carbohydrate containing foods / foods that affect blood glucose levels.

#### Starchy Foods

Bread  
Potatoes  
Cereals  
Pasta  
Rice  
Noodles

#### Sugary Foods

Biscuits  
Cakes  
Sweets  
Chocolate  
Sweet Puddings

#### Naturally Sweet Foods

Milk and Milk Products  
Fruit and Fruit Juice

4. Identify non carbohydrate containing foods / foods that do not affect blood glucose

#### Protein

Fresh Meat  
Fresh Eggs  
Fresh Fish

#### Fat

Oil  
Butter / Margarine  
Cheese

5. Work out the total carbohydrate content of the meal / snack you are consuming and write this number of grammes in the third column of the diary being as accurate as you can.
6. Record the dose of quick acting insulin you have taken in the fourth column. Please note this should not be changed unless discussed with whoever prescribes your insulin unless they have discussed dose adjustment with you.
7. Please record activity or any comments that may be relevant such as being unwell or hypo in the final column of the diary.

## Tips for completing your food diary

- Write down all you eat and drink
- Use a different page for each day
- Try to describe the amount/ weight of food actually eaten in one of the following ways:
  - Actual weight e.g. 2oz ham or 26g packet of crisps.
  - House hold measures e.g. 1 level teaspoon, 1 teacup, 1 mug full, a match box size piece of cheese, an egg size potato.
  - Per item e.g. 3 ginger biscuits, 2 weetabix.
- Try to be specific about the description e.g. is it white, wholemeal or granary bread.
- Alcohol: No need to count the carbohydrate in alcoholic drinks.
- Labels: Remember to look at the TOTAL amount of carbohydrate not just the sugars.

## Example

Time	Pre meal blood glucose level	Food / Drink	Carbohydrate Content (g)	Insulin Units Given	Activity/ Comments
<b>Breakfast Time:</b> 7am	6.6	Branflakes (30g) with 220ml semi skimmed milk 200ml glass orange juice	25 10 20	5	7.30am 10 min walk to paper shop
<b>Mid-morning Time:</b> 10.30am	5.8	1 medium banana	15	2	

Date: \_\_\_\_\_
