

# Your Journey Through the Eye Clinic at Calderdale Royal Hospital

The eye clinic is on the ground floor of the hospital.  
When you arrive go to the reception desk to tell them your name.

You can sit in the waiting room, we have a TV to watch and some toilets if you need them.

The waiting room can get very busy but there are lots of doctors working to see everyone.

A nurse will test your eyes in the vision channel using a letter chart. You can read or match the letters.

If you cannot read or match letters, an orthoptist can test your eyes with pictures by matching or by looking.

After your eye test you may need to have some drops put into your eyes. This is to make the pupil bigger so the doctor or optometrist can see into the back of your eyes.

The nurse may call you to have some photos taken of the back of your eyes, these pictures help the doctor see how your eyes work.

When it's your turn the doctor will let you know what is wrong with your eyes. They may send you for more eye tests or give you eye drops or medicine to help your eyes get better.

**If you have any questions about your visit please ask our friendly staff in uniform or contact us on 01422 222218**
