Contact Lens Service

Medical contact lenses are supplied to patients by our hospital optometrists for three main reasons, firstly when satisfactory vision cannot be obtained through spectacles but can with contact lenses, secondly when exceptionally strong spectacles are required and thirdly when the appearance of the eye is unacceptable.

Contact lenses are subject to a National Charge set by the Department of Health each year.

Current charges are as follows:

£60.75 per lens

£121.50 per pair

This charge covers a 6 month supply.

Lost or Broken contact lenses will also be charged at the above rate.

Please note if you are exempt from payments, this does not automatically mean that you will be entitled to a replacement lens free of charge.

Exemptions - Proof of eligibility will be required at the time of ordering.

- Patients aged under 16, under 19 in full time education.
- Patients on an income based benefit.
- Patients who need their contact lenses changed for clinical reasons.
- Patients requiring the following lens designs
 - a) piggy back lenses
 - b) painted cosmetic and occlusive lenses are also exempt.

How long will it take to receive my contact lenses?

Contact lenses will not be ordered until proof of payment or exemption has been seen.

How long it takes to receive your replacement depends on the complexity of contact lens ordered and manufacturer used but can typically take two to six weeks. Scleral contact lenses may take up to eight weeks to arrive.

Please wait until after your advised wait time before contacting the department with any queries.

Collection

You can collect your Contact lenses from the eye clinic between the following times:
