Removing your shield the morning after your procedure

1. You received a package during your discharge containing your eye drops, sterile water and sterile gauze.

2. Before opening this package thoroughly wash your hands.

3. Then once your hands are clean take your eye shield off.

4. Take out your sterile water pouring it onto the sterile white gauze making sure it is entirely covered.

5. Wipe your eye using one piece of gauze at a time. Starting at the inner comer of your eye moving in one outwards motion.

6. DO NOT USE THE SAME PIECE OF GAUZE MORE THAN ONCE.

7. Once your eye is clean your eye is ready for the drops.

8. When using multiple drops leave a few moments in-between application to make sure the other drops do not get washed out.

compassionate care

How to Use Eye Drops

1. When eye drops are not in use keep upright position with a tightened lid.
2. If your drops need REFRIGERTATING make sure to not freeze drops.
3. DO NOT let you bottle or the tip of the bottle touch your eye.
4. Some drops can make your eyes blurry; if so DO NOT DRIVE or operate heavy machinery until your eyes clear.

			Suggestion of time of day to take						
Name of Drop	How many times a Day	For how many weeks	Breakfast	Mid-morning	Lunch	Mid-afternoon	Teatime	Bedtime	Extra Information
