

Haematology/Oncology Department

Venesection Appointment

Appointment at the Haematology Clinic

Date _____ Time _____

An appointment has been made for you to attend the Haematology Clinic for a venesection. You are advised that on the morning of the venesection to take your normal diet and take at least two further glasses of fluid. If you are taking Water tablets or blood pressure tablets do not take them on the morning of the venesection.

We will discuss the reasons for this at your appointment and give you the opportunity to ask any further questions.

A venesection is a procedure where approximately 500 ml of blood is extracted from your arm into a bag. This is the same procedure as for those who donate blood.

The venesection procedure lasts approximately ten minutes. Following this you will be asked to rest a short while and offered a drink. Usually you will be in the Department approximately half an hour. If you have any further enquiries please ring the Hospital on (01484) 342683 where my staff will be able to answer your queries.

If you have any comments about this leaflet or the service you have received you can contact :
