

# You and your child's journey through Eye Clinic at the Calderdale Royal Hospital

Welcome to the eye clinic at  
Calderdale Royal Hospital

On arrival, type your details into check-in computer by the children's play area. If you are unable to check-in via the computer, please go to the eye clinic reception.

Take a seat in the children's waiting area.

We have a robot TV, books and toys to keep you entertained whilst waiting to be seen.

If you are here to see the orthoptist, they will call you through into their room to test your eyes by looking at letters or pictures. They may also test how well your eyes move and work together as a pair.

If you are older and know your letters a nurse will call you to read them in the vision channel

When you have had your eyes tested, the doctor may need to put some drops in your eyes. A nurse will do this.

These drops are to make the pupils in your eyes bigger, so the doctor can look at the back of your eyes. The doctor or optician may need to do some tests to see if you need glasses. The drops help them throughout these tests.

The drops can take up to 30 minutes to work (children who have very dark eyes can take longer to dilate and may need more than one lot of drops)

When it is your child's turn to be seen, the Doctor or Orthoptist will see you and your child. The Doctor or Orthoptist will be able to explain the problem you have with your eyes.

If you have any concerns or questions feel free to ask our friendly Doctors or Orthoptists who will be more than happy to answer.
